

Mary Queen of Apostles

SCHOOL

Make Me a Maker

Adult/Child Preschool STEM Program
for Children Ages 3-5

Session 1: *Code, Program, & Play*

Learning coding through play! Apply coding through technology in interactive sessions. Create and program your way in this six week session.

Problem solve, estimate, and sequence using Bee-bots! Teach the friendly robot to travel from one place to another on a school map. Use your own body to create and perform your very own CODE design.

Incorporate CODE through technology. Will you be able to lead Rus, Sydney, and Hippo to gather the golden pieces by using directionality skills? Manipulate programming tiles on a special Puzzlets coding board to move these characters and complete a level on the iPad application called Cork the Volcano.

Use our special LEGO kits and iPads to build and program. Using experimentation and problem solving and by following directions, the creations will come alive!

Date/Time:

Saturdays (February 9 – March 16) Time: 9:00-10:30

Cost: \$30/6 Week Session

*Cost includes one child and caregiver

Session 2: *Construction Junction*

Become an architect and an engineer by helping our nursery rhyme friends cross a bridge built by YOU! Will your bridge be wide enough and strong enough to help all three billy goats escape the troll under the bridge?

Use your skills as an architect and engineer to manipulate materials, create structures, and problem solve as you design different types of structures and solve challenges.

Challenge yourself to build something brand new out of materials. Learn about new storybook friends and how they recycle materials to design, build, and create new treasures.

Date/Time:

Saturdays (March 30–May 11) Time: 9:00-10:30

NOTE: There is not class on April 20th during Easter Vacation

Cost \$30/6 week session

*Cost includes one child and caregiver
